HOW OUR PROCESS WORK?

1

Process starts with your request.

4

After the completion of the procurement research, best offers with best quality and best terms will be submitted to your attention

2

A qualified customer representative is assigned for you.

5

After sales, quality control procedures will be carried out upon completion of the agreement

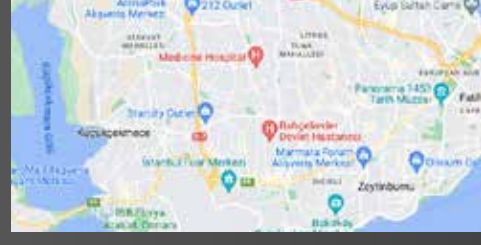

3

Next step is determining the optimal source of supply

6

Logistics process will be also under our guarantee according to your preference.
